

**THIS IS JUST FOR PRACTICE. YOU DO NOT TURN THIS IN AND IT IS NOT WORTH ANY POINTS**

**(DURATION: 20 MINUTES)**

**FIRSTNAME, LASTNAME (PRINT IN UPPERCASE):**

**STUDENT ID (e.g. 123456789):**

**INSTRUCTIONS:**

- Write a program that will prompt for the user's name. It will printout the user's name and tell them how many characters are in the name. Next prompt for the number of books read. If it is less than 2, print out the message **Read More!**. If it is between 2 (inclusive) and 5 (exclusive), print **Good!**. If it is 5 or greater, print **Wow!**.

Here are 2 different sample runs (with user input in *italic* and output in **bold** just to make it easier to understand how it works).

**Enter your name:** *Matthew*

**Your name has 7 letters in it.**

**How many books did you read for fun?** *3*

**Good!**

**Enter your name:** *Arjun*

**Your name has 5 letters in it.**

**How many books did you read for fun?** *7*

**Wow!**

```
import java.util.Scanner;
public class Q1Practice {
    public static void main(String[] args) {
```

```
}
```

```
}
```
