1. (50 points. You have to get them all right for 50 points, else 0 points)
   READ the Syllabus before doing this problem. You may also need to
   look at *Admin,Intro to Theory of Computation* slides.

   (a) When is the Midterm?

   (b) What is *the dead-cat policy*?

   (c) When and Where are Javier's Office Hours?

   (d) When and Where are Alex's Office Hours?

   (e) When and Where are Leo's Office Hours?

   (f) When and Where are Bill's Office Hours?

   (g) Name all of the ways you can communicate with Javier, Alex, Leo,
       and Bill.

2. (0 points but do it anyway. This is the most important problem on this HW!)

   (a) If you are not on piazza, put yourself on piazza.

   (b) If you are not on gradescope, put yourself on gradescope (The school automatically put everyone enrolled in the class on gradescope but it might have messed up, and some of you might not be on the roster yet.)

   (c) (0 points) Learn LaTeX and write some simple documents in it.

   (d) (0 points) Learn the package tikz that you can use to draw pictures in LaTeX. Draw a simple picture with it.

3. (50 points) Read Vannevar Bush's paper from July 1945:

   `http://web.mit.edu/STS.035/www/PDFs/think.pdf`

   Write down two predictions he made that came true.
